

# Week 24 Day 2 - uiGrid & ngTable

## Review

Firebase security and rules

## uiGrid

Show ui-grid.info site, with sections and samples.

<http://ui-grid.info/>

Fork uiGrid repo from github, and pull data from an API.

<https://github.com/dolthead/uiGrid>

Configurable properties:

- column name
- column width
- resize columns
- unsortable column
- field template
- row highlighting
- row selection
- cell edit
- pagination
- sum, avg, min, max (only per page!)
- tooltips
- filters

## ngTable

<http://ng-table.com/>

## Exercise

Use ng-table.com example to display data from ui-grid.info json data.
