Required points: 10 pts.
Awesome points: 8 pts.
Total points: 18 pts.

Rubric

Required:

- Write a custom filter that will uppercase the first letter of each word and will lowercase every other letter in a task or list name. (2 pts.)
- Write a custom directive that's used within an ng-repeat that will create the content to be displayed (2 pts.)
- Write a static custom directive that displays a row with a message stating there are no items to show (2 pts.)
- Use ngStorage to persist the data even after a refresh (2 pts.)
- ngAnimate all routes (2 pts.)

Awesome:

- Internationalize your app using angular translate (https://angular-translate.github.io/) (4 pts)
- Make items editable (either in place or in a modal window) **using AngularJS** (4 pts)
